SUMMARY

Full Stack Developer skilled in MERN, DSA, and Generative AI, with hands-on experience in LangChain, LangGraph, RAG, Vector Databases, Gemini, and Groq. Experienced in building scalable, AI-powered applications and multi-agent systems with secure backend architectures.

TECHNICAL SKILLS

Languages: C, C++, JavaScript

Frontend: React.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend Database: Node.js, Express.js, MongoDB, Mongoose, Redis, REST APIs, JWT, Firebase

Generative AI: LangChain, LangGraph, RAG, Gemini API, Groq API, Vector Database

Tools Core: Git, GitHub, Postman, VS Code, DSA, OOP, DBMS, OS, Computer Networks

PROJECTS

CortexAI – Adaptive Multi-Agent AI Platform ;–; MERN, LangGraph, Gemini, Groq, RAG

June 2026

Built an adaptive multi-agent AI platform using LangGraph to analyze, decompose, and dynamically route user queries to specialized agents based on task complexity.

Implemented recursive complexity-based agent selection to assign lightweight agents to simple tasks and capable agents to complex subtasks, with trust-based evaluation and escalation of unreliable outputs.

Developed a scalable MERN microservice architecture with Redis, MongoDB, Pinecone, S3, Firebase/JWT authentication, and Razorpay, while tracking agent-level tokens, execution flow, and cost for effective AI resource utilization.

AI Interview Platform – MERN Stack, Gemini API

July 2026

Developed an AI-powered interview preparation platform supporting HR, DSA, and behavioral interviews with adaptive question generation.

Integrated Gemini API to evaluate candidate responses, generate company-specific interview questions, and deliver personalized performance feedback.

Built secure JWT authentication, interview history, analytics dashboard, and RESTful backend APIs using Express.js and MongoDB.

Code Blaze – MERN Stack

March 2026

Developed a full-stack online coding platform with secure authentication, coding challenges, submission tracking, and role-based admin functionality.

Built RESTful APIs using Express.js and MongoDB with JWT authentication to manage users, problems, and submissions securely.

Designed responsive React interfaces and optimized backend database queries to improve application scalability and user experience.

EDUCATION

KIET Group of Institutions

B.Tech in Computer Science and Engineering – CGPA: 8.1

King's Eden International School

Intermediate (Class XII) – Percentage: 90%

Dawn Washco School

High School (Class X) – Percentage: 79.6%

Ghaziabad, U.P.

Oct 2023 – March 2027

Mau, U.P.

2021 – 2022

Mau, U.P.

2019 – 2020

CERTIFICATIONS

- AWS Cloud Practitioner / AWS Fundamentals
- MongoDB Certification (Database Fundamentals)
- Cisco Certified Network Associate (CCNA) / Cisco Networking Certificate
